To start with `cpy2py`, you should start with the overview pages:

- A quick overview of features is available in the README.
- Key terms are listed in the Glossary

Since the API is still being heavily extended, there is not guide or tutorial. Instead, refer to the examples for various features:

- `examples/example_function`

The working principles and usage are described in the following topical pages:

- `docs/objects`
- `docs/functions`

CHAPTER 1

Indices and tables

- `genindex`
- `modindex`
- `search`
